Stephen Grider

1 Year of Mechanical Engineering   **On-sight**
University of Kwa-Zulu-Natal, Howard Campus

Experience

Freelance   Jan 2022 - Current
Frontend Software Engineer

- Engineered scalable, responsive, multi-platform and SEO friendly websites for multiple clients using HTML5, CSS3 + BEM, JavaScript ES6+ and React best practices
- Communicated business requirements with stakeholders and delivered high quality solutions
- Connected to backend APIs through CRUD HTTP requests

Self Employed   Jan 2022 - Current
Programming Tutor

- Tutored clients HTML, CSS, Flexbox and JavaScript best practices
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests
- Taught debugging best practices using Google Chrome inspect element tooling
- Provided website UI designs to 1:1 and reviewed code through weekly code reviews

Tauspace   Jan 2022 - Current
Software and Support Engineer

- Monitored Databases using SQL
- Assisted the team in maintaining the frontend of their software

Commercial Projects

Coffee Shop Website
https://hashkader.github.io/roastlabs/

- Delivered `O Roast Lab` their website in 7 days using HTML5, CSS3 (+BEM), Bootstrap and JavaScript best practices
- Improved their website performance by compressing caching and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their business to be viewed by any client in the world

E-Portfolio
https://hashkader.github.io/client-portfolio/

- Designed, developed, and hosted my client's e-portfolio using semantic HTML5 and CSS3 (+BEM) best practices
- Provided support for search engine optimization for higher indexing through Google's search engine crawler
- Included responsive and multi-platform support to enable the portfolio to be viewed on any platform and device

Technical Skills

Proficient: Html5, CSS3 (BEM), JavaScript ES6+, React (+hooks), Elixir, Phoenix, SQL, Python, npm, Git, GitHub

Familiar: Redux, SASS, Yarn, React dev tools

Referees

Available upon request.

Extra info

In the year that I did Mechanical Engineering I received the Deans Commendation for both semesters. I also achieved one of the highest aggregates across the entire Engineering board. Due to this I was invited to be part of my university's student exchange program. This means that I was offered to choose from 20 universities from around the world. Proof of the above statement is available upon request. I turned the opportunity down because I had a passion for frontend development and decided to pursue it. I thereafter studied frontend development through some of the best tech industries in the world.
